#### Step 2: Building Flavor

- 1.5 lbs. 99% lean ground turkey
- 1 Tbsp. canola oil
- 1 tsp. salt
- 1 tsp. sriracha sauce (optional)
- 1 package chili seasoning

#### Step 3: Texture & Finish

- 1 can (15 oz.) kidney beans
- 1 can (15 oz.) black beans
- 1 can (28 oz.) crushed tomatoes
- 3 Tbsp. tomato paste
- 4 cups (32 oz.) vegetable broth

- 2 Tbsp. lowfat cheese (60 calories)

### Directions

**1)** Dice the vegetables in step 1 into similar sizes of about ½ inch x ½ inch. Combine the onion and bell pepper. Set the sweet potato and garlic aside.

**2)** In a large stockpot, add the canola oil, ground turkey, and salt. Once it is cooked through, remove it and set aside. Leave any drippings in the pot, and add the diced peppers and onion. Stir and simmer for about 15 minutes until softened. Add the chili seasoning, potatoes, turkey, and sriracha. Use 1 cup of broth to steam the mixture.

**3)** Add all of the ingredients in step 3. Simmer on low for 30 minutes to soften the potatoes and allow the flavors of the chili to come together.

**4)** Garnish with shredded kale or spinach, a dollop of plain Greek yogurt, shredded cheese, rice, or any combination of the four!

### Food Fact

This soup is packed with ingredients that can aid in recovery from exercise. Red, orange, and yellow peppers are packed with antioxidants to reduce oxidative stress, beans are a complex carbohydrate that will help restore muscle glycogen, and the turkey is rich in branched chain amino acids that aid in muscle and tendon growth and recovery. Turkey is also rich in selenium, another powerful antioxidant.

### Cooking Tip

Freeze some chili in single serving containers. Defrost overnight for a quick meal! It will last up to 6 months frozen.

**Not a meat eater? This soup would also be excellent with 1 lb. of any combination of beans or lentils in place of turkey. Tempeh, tofu, and mock meats also work!**
