

# LIST OF THE APPS YOU NEED TO DOWNLOAD

NOTE: This document is subject to change.  
Please continue to check back for updates.

Last Updated 7.16.21

*Make sure to download these apps at least one week before departure.*

## TEAM USA DELEGATION APP

This app contains important Team USA information and resources to help you prepare for the Games and will keep you informed while you are on the ground in Tokyo. If you have not received an invitation to download this app, email [athleteservices@usopc.org](mailto:athleteservices@usopc.org).

## OCHA - HEALTH REPORTING APP

This app will be used for the one-time pre-departure health reporting, as well for customs and immigration information required for entry into Japan. It will also be used for daily health reporting for the duration of your stay in Japan. Prior to logging into OCHA, you will need to register in the ICON website. [Review the step-by-step instructions for ICON and OCHA here](#) for more detailed information.

## COCOA

This app enables you to receive notifications about the possibility of contact with someone infected with COVID-19 via Bluetooth. The app is available for download now, *but it will only function when you are in Japan.*

## CUE HEALTH

Each delegation member will need a COVID-19 test for travel back to the U.S. from Tokyo. Tokyo 2020 is still confirming its departure testing plans. Team USA is prepared to use CUE Health to provide departure tests, if needed. Please download the CUE Health app on your phone in preparation.

## GOOGLE MAPS

As a requirement of the Japanese government, you must enable location tracking history for the duration of your stay in Japan to help facilitate contact tracing.

## UNITED AIRLINES & WHATSAPP

*These apps are recommended.*
