

## 2020 U.S. Olympic Team - Athletes by State (Name, Sport, Hometown city and state, Event)

In alignment with previous games, the roster of 613 athletes does not reflect athletes currently registered for the Games as alternates. In effort to provide added flexibility to nations competing in the Tokyo 2020 field hockey, team handball, rugby, soccer and water polo competitions, the IOC and respective International Federations announced new policies for athletes registered as alternates in their sport. For the Tokyo Games, accredited alternate athletes in these sports are immediately eligible to be called into game day rosters and, in that case, will become Olympians. The USOPC, in compiling the roster of the 2020 U.S. Olympic Team, followed these guidelines and will update the roster accordingly. Existing athlete replacement protocols remain in place for the remaining sports on the Olympic program.

\*Alternate athletes who are eligible to be called into game day rosters.
