He reviewed the subsequent work performed by USOC staff as agreed during that meeting, and the results of that work: Gathering feedback on the plan, including as to the City’s intended Facility operator (the Point Loma Trust), from athletes and others most likely to be impacted by the plan; and working with officials from the City and its intended operator to ensure that should the transfer go forward the Facility will continue to be operated in a way that meets the needs of elite U.S. athletes and the policies of the USOC.
