

## Candidate Statement – Jeff Williams

Archery has been a blessing for my family. As a parent whose son, Jack Williams, has dedicated the past five years of his life to reach the top of the sport of archery, I feel an increasing responsibility and calling to serve on the USA Archery Board of Directors.

My professional work has been as a teacher, primarily at low-income schools for the past 19 years in Costa Mesa, has been driven by a desire to give back to my community. That desire will guide every decision, seeking what is best for archery, during my term on the Board.

Having become a part of the unprecedented growth of archery and USA Archery specifically, I believe it is important to remain focused on the mission and responsibilities of the organization. USA Archery can be proud of recent accomplishments, especially related to growth of the membership and competitions. There are remaining opportunities for improvement including collegiate archery, high performance archery, coaching and judging programs with a priority given to results. I would like to see USA Archery become more customer friendly towards archers, their families, and the USA Archery membership as a whole. I hope to assist USA Archery in helping identify who, and what those different customers should expect from USA Archery. Archers in all age categories deserve consideration for their careers or academics when USA Archery is deciding when, where and how often tournaments, camps and required activities or events will be held.

As someone who has been involved with four different JOAD programs, worked with two different college programs, whose son is a Resident Athlete/USAT member, and a regular customer of two local archery shops in Orange County, I believe I can represent every type of USA Archery member. My experience and relationships allow me to represent archers shooting compound & recurve division, JOAD & non-JOAD clubs, coaches, parents. I have spoken to friends & family members involved in the sports entertainment industry about ways to benefit USA Archery and increase its marketing and funding from outside archery sources.

I bring an inquisitive, collaborative attitude and management/teaching style with decades of experience getting students, parents and schools to strive towards a common goal, and will do the same within USA Archery.

In my role as a USA Archery Board Member, I have a respect for archery's past, and a vested interest in the future, as a parent of an Olympic hopeful.

**Jeff S. Williams**
