

Michael Pritchard Candidate Statement

For most of my life I have been involved with volunteering and youth activities: volunteer camp counselor, YMCA camp director, coach (gymnastics, basketball, martial arts, and archery), volunteer at the 2002 Olympics, volunteer at the 2002 Para-Olympics, and more.

With each new endeavor, I committed to learn as much as possible and create a positive experience for all the participants. For me, being involved means much more than “just showing up”. Getting involved means creating an environment where participants can grow and enjoy activities regardless of their skill level.

The archery community has provided so many wonderful experiences and we have made so many friends within the archery community, I would like to volunteer as a Board member to continue giving back to the archery community.

Professionally I work with technology as a team-leader. Education includes a Master’s Degree in Information Management, and BS in General Science with Minors in Math and Computer Science.

Over a 10+ year period I have had the opportunity to work with JOAD clubs in Utah, California, Colorado, and Tennessee. I have never asked for payment or reimbursement. Often times it cost me money and resources to volunteer, which includes providing equipment and many bow strings for kids. I ask that you give me the opportunity to expand my efforts and help grow the sport we all love and enjoy.

MICHAEL A. PRITCHARD
