

Freestanding Scoreboards

Submitted by: Paul Ellarby, Dakota Curling Club

Scoreboards. 16" x 8' x 3/4" particle board, and three 2" x 4"s.

Cut two 2 x 4s in half, and put a hinge on the joint. The cross-mounted 2 x 4 provides added stability and stiffness.

Notice the sponsor recognition cards hanging from the bottom of each scoreboard. Sponsorships of \$250 were sold for each of the five sheets to help with club start-up costs.

I used hurricane straps to attach the cross brace to the legs. Of course, the particle board is screwed to the 2 x 4s.

Scoreboards fold up for easy storage off the ice surface.
