

## 2019 Futures Attendance Policy

For Futures 2019, an athlete does not need to attend a certain number of Futures sessions to be eligible for selection to the National Futures Championship from their Regional Futures Tournament.

Futures stresses the importance of an athlete attending all scheduled sessions but recognizes that there are many opportunities to play, for this reason we are not making attendance mandatory for 2019 program. Athletes are required to attend sessions at the site which they are assigned. Athletes may **NOT** switch sites and attendance will be taken to ensure site assignment integrity. An athlete will be allowed 2 make up sessions at another site, with approval from the assigned site Head Coach and the Head Coach of the site you wish to make up a session at. See the Make-Up Attendance Policy for guidelines on making up sessions.

Futures will continue to schedule sessions, when possible, as not to conflict with other USA Field Hockey Events, such as The Disney Field Hockey Showcase and the National Indoor Tournaments. We are aware that there are many other opportunities to play and we are not able to schedule around all conflicts.

Inquiries about this attendance policy and make up sessions can be addressed to the [Regional Futures Manager](#) within your region.
