Introduction

USA Field Hockey recognizes that sustaining and growing a sport in the United States requires effective sports leaders. Exponential growth can only occur when national, regional and local sports leaders work together, adopting and applying shared goals, values and development philosophies. The USA Field Hockey Staff, Board of Directors, Foundations and volunteers from across the country gathered feedback from numerous field hockey enthusiasts and leaders from growing sports on what regional structure would best serve the sport of field hockey. It became clear that regional representation was needed. USA Field hockey is appreciative of the investment and volunteer effort from all leaders and seeks to unite, encourage and support more leaders to grow the game through State Chapters.

Field hockey is a sport for all and a sport for life, and yet how it is enjoyed throughout the United States is very different. As a result, each area of the country has unique opportunities and challenges. It is USA Field Hockey’s vision that engaging and empowering volunteers to work toward national goals but apply local strategy at the state level will result in exponential growth. In 2020, USA Field Hockey started working with leaders in select states to introduce a system of regional representation in the form of State Chapters. The three states identified to pilot State Chapters are California, Kentucky and Michigan.

Resources have been allocated to support State Chapters and their overarching areas of focus. Importantly, these areas of focus align with and support USA Field Hockey’s strategic plan, mission and core values. See Appendix D - USA Field Hockey Core Values and Appendix E - USA Field Hockey American Development Model (ADM), which provides a framework for establishing a lifelong love of field hockey.

USA Field Hockey works closely with the United States Olympic and Paralympic Committee (USOPC) to effectively promote and grow the sport for future generations to enjoy. USA Field Hockey is a member of the International Hockey Federation (FIH), along with 137 other countries. USA Field Hockey is also a member of the Pan American Hockey Federation (PAHF). For full portfolio details see Appendix F - List of USA Field Hockey Regional, National and Sanctioned Events Portfolio.

This role may sit on each state’s Board or build in regular meetings to ensure the State Chapter Boards are working together.

Other Committees as deemed necessary based on the needs and priorities defined in the Chapter Strategic Plan.

Election Process

Nomination and Election Process for State Chapter Board Officers

The officers of the State Chapter Board shall be nominated and elected by those eligible to vote as provided below.

Nominations

- Not less than sixty (60) days prior to the last day of voting, USA Field Hockey shall send an email to all eligible voters:
  a. notifying them that an election for their State Chapter Board will be held
  b. stating the deadline for voting
  c. soliciting nominations for qualified leaders and stating the deadline for submitting nominations for each open position to be filled by the election, which deadline shall be at least thirty (30) days prior to the voting deadline
- Not less than twenty (20) days prior to the last day for voting, USA Field Hockey shall send an email to all eligible voters:
  a. listing the names of all persons nominated for positions on the State Chapter Board
  b. if provided to USA Field Hockey prior to the deadline for submitting nominations by a nominated candidate, including a copy of a candidate statement for each nominated candidate
  c. providing instructions on how to vote
  d. stating the deadline for submitting votes
• The founding State Chapter Board will set the year length for each term. At a minimum of two (2) years and maximum of three (3) years per term which can be changed at any time by a majority vote of the State Chapter Board. The maximum amount of terms that someone can serve in the same role consecutively is three (3).

Timeline

• Under normal conditions, in August each State Chapter Secretary will provide USA Field Hockey the positions that are up for election because an officer’s term expires that year. Candidates may self-nominate for a maximum of three (3) positions on the State Chapter Board, which can be a mix of executive board and chair positions. If a candidate receives the most votes for multiple positions he/she may pick which position he/she wants. Then the position(s) not picked will go to the person who received the second most votes, and so on. A person may run for a different position even if his/her term has not expired. If the candidate gets the most votes for another position, he/she may serve in both roles or nominate someone to finish the term with the State Chapter Board majority approval.

• All elections for State Chapter Boards shall take place between November 1 and December 15 of the year prior to the January 1 on which the term of office for which the election is being held is to commence. Following the conclusion of balloting, USA Field Hockey shall promptly notify the nominated candidates and the existing State Chapter Board of the filled positions as to the results of the election.

• USA Field Hockey is committed to enhancing diversity at all levels. Accordingly, USA Field Hockey encourages each State Chapter to seek out and select diverse representatives for their State Chapter Board.

• To encourage diversity and cross geographic representation on the State Chapter Board, no more than 50% of Executive Board seats may be from the same field hockey club. On the whole board, including the chairs, no more than 40% may be from the same field hockey club. If a greater percentage results from an election, the person(s) who received the least amount of votes and causes the overage in representation will not serve. The next candidate to receive the most amount of votes will get the spot.

• The National Election will happen annually for all available State Chapter roles at the same time. The election process for new State Chapters does not need to occur during this time, but upholds the same requirements. USA Field Hockey will reach out to all State Chapter Members to provide information about the State Chapter and the roles open at least thirty (30) days before the election. The election for new State Chapter roles requires candidates to self nominate, and members of the State Chapter to vote for founding State Chapter Board roles.

Eligibility to Vote

In order to be eligible to vote in an election for a State Chapter Board position, an individual must:

a. be 18 years old, or older, on the date of the election

b. be a current member of USA Field Hockey seven (7) days prior to the deadline of the election and on the date of the election.
Election Process

» Most likely in the future when members are more familiar with the election process, the seven (7) days will be extended to ensure that the member is invested in the State Chapter.

The individual must have his/her primary place of residence within the State Chapter in which the election is being held. Exceptions can be made if a State Chapter Member is affiliated with a club in another State Chapter, however, an individual may vote in only one State Chapter in any election year.

Resignation, Removal and Vacancies

A position on the State Chapter Board shall be declared vacant upon the Board Member’s resignation, removal, incapacity, disability or death. A Board Member may resign at any time by giving written notice to the State Chapter President, with a copy given to the USA Field Hockey’s National Development Director. Such resignation shall take effect at the time specified in the notice of resignation and, if not specified, upon receipt of the notice by each of the State Chapter President and USA Field Hockey National Development Director. State Chapter Board Officers may be removed at any time, with or without cause, by:

a. the affirmative vote of not less than 66% of the State Board Members other than the Board Member whose removal is being voted upon.

b. USA Field Hockey’s Executive Director. Any vacancy on a State Chapter Board may be filled by a majority vote of the remaining members of the State Chapter Board. The new State Chapter Board Officer selected to fill a vacancy shall serve the remaining unexpired term of the member’s predecessor in office.
Collaboration Among State Chapters

A priority of State Chapters is to have the chairs collaborate specifically with their counterparts in other State Chapters and with the USA Field Hockey Staff to share experiences and best practices. This will be done through regularly scheduled meetings and Microsoft Teams as a cloud solution to post tools, resources and best practices. Also, there will be forums for leaders to discuss issues.

The “Resources, Tools and Knowledge Sharing” folder on Microsoft Teams is for USA Field Hockey and all State Chapter leaders to upload and share resources, tools, templates, trainings, for support and sharing knowledge with each other. Details of the knowledge sharing on Microsoft Teams is in Appendix A - Tools, Resources and Knowledge Sharing on Microsoft Teams and Appendix B - Examples of State Chapter Initiatives and Activities to Grow the Game.

State Chapter Executive Board and Chairs will also meet with leaders in other State Chapters. Example: The Coach Chair will meet with other State Chapters’ Coach Chairs and USA Field Hockey Coach Education and Learning Staff. Details of the different meetings for State Chapter leaders and USA Field Hockey Staff is in Appendix C - Meetings, Interactions with State Chapters and USA Field Hockey Departments.

Funding, Budget & Finances

State Chapters will be funded by USA Field Hockey, with a goal of becoming self-supporting as the State Chapter grows. Seed money will be agreed upon based on available funding, and the stated needs of a State Chapter based on the completion of a strategic plan. To start, each State Chapter will receive seed money of $1.00 per existing USA Field Hockey Member or $1,000.00, whichever is greater, in the month the back account is opened. These expenses will be paid by USA Field Hockey. The bank account has USA Field Hockey as co-signor and accounting is done through USA Field Hockey.

All USA Field Hockey State Chapters will have an Annual Review which includes reviewing the State Chapter Budget Process. State Chapters have autonomy to raise funds within their State Chapter area through several means, including hosting clinics such as Discover Field Hockey and Play and Learn Field Hockey, tournaments, fundraisers and more. The goal is for State Chapters to become self-sufficient in time.

Submit an Annual Strategic Plan - State Chapters must develop a Strategic Plan that outlines strategies and tactics to succeed. USA Field Hockey will work with the State Chapter leadership in the creation of this plan, though the priorities of the State Chapter are determined by State Chapter leadership and membership.

Submit an Annual Budget - All State Chapters must plan and prepare a projected budget for each coming year. These budgets are used by USA Field Hockey to determine if additional funding can be allotted to a State Chapter in addition to the baseline membership allocation.

Pilot State Chapters will help identify and develop funding opportunities and activities to generate revenue for
Funding, Budget & Finances

State Chapter success. Pilot State Chapters will receive additional funding as available in year one to achieve their strategic initiatives. At the end of year one of Pilot State Chapter programs, the plan is to allocate additional funds based on membership growth within the State Chapter, as well as success against other key performance indicators as identified in the State Chapter.

No officer of a State Chapter shall receive compensation for his/her services as such; provided that the expenses of any State Chapter officer incurred in connection with State Chapter’s business may be reimbursed as determined by the State Chapter Board.

1. General

1.1: Article 21. Article 21 of the By-Laws of the United States Field Hockey Association, Inc (“USFHA”) requires USFHA as the National Governing Body (NGB) for the sport of field hockey in the United States to adopt a Code of Ethics and an Ethics and Conflicts-of-Interest Policy (collectively, the “Code”) applicable to all USFHA employees, Board Directors, officers, committee members and volunteers. Article 21 also requires the Code to be approved by the United States Olympic and Paralympic Committee (USOPC), and that each USFHA employee and volunteer annually certify compliance with the Code. This document fulfills the requirements of Article 21 as the Code of Ethics for USFHA.

1.2: Purpose and Scope. This Code of Ethics contains general guidelines for conducting the business of USFHA, consistent with the highest standards of ethical behavior. It aims to promote honest and ethical conduct and compliance with applicable laws, rules, regulations and standards within the organization. USFHA recognizes that no code of ethics or conduct can replace the thoughtful behavior of ethical individuals and organizations. However, such a code can focus attention on areas of ethical risk, provide guidance to help recognize and deal with ethical issues, and help to foster a culture of honesty and accountability within USFHA. To the extent this Code requires a higher standard than is required by commercial practice or applicable laws, rules or regulations, USFHA aims to adhere to these higher standards.

1.3: Applicability. The Code applies to all USFHA Board Directors; officers; employees; volunteers; members of USFHA committees and task forces; athletes, coaches, umpires, trainers, team managers, other officials and the like; agents and representatives acting on behalf of USFHA; and to independent contractors, companies and consultants working for USFHA. For the purposes of this Code, the above individuals and organizations are referred to in the Code as “USFHA Representative” or “USFHA Representatives”.

1.3.1: Other Applicable USFHA By-Laws. The following USFHA By-Laws are also applicable to ethical principles and standards, good ethical practices and the avoidance of conflicts-of-interest, and are incorporated into this Code:

• By-Law 5.4 - Qualifications. A Board Director shall “have the highest personal values, judgment and professional integrity”; and “have demonstrated exceptional ability and judgment.”

• By-Law 5.12 – Conflict of Interest. This By-Law prohibits a Board Director, an officer, a member of any committee, employee, paid consultant to, or agent / representative of, the USFHA from participating in the “negotiation, evaluation or approval of any contractual arrangement” with USFHA if he/she or their immediate family would financially benefit from the arrangement. If such an individual finds out that such an arrangement is proposed, then he/she is required to promptly notify in writing the Board Chair, who in turn discloses it to the Board and refers it to the Ethics Committee for determination whether there is a conflict-of-interest. The By-Law also states that in the event of there being a potential conflict-of-interest, such an individual is required to excuse himself / herself from discussions and voting. A violation of this requirement entitles the Board to recover any financial benefit obtained, void the contractual arrangement, and to initiate disciplinary procedures against the individual concerned.

• By-Law 23.3 – Standard of Conduct for Directors and Officers, particularly 23.3.1 - General. This By-Law requires Board Directors and Officers to perform their duties in good faith, in a manner they reasonably believe to be in the best interests of USFHA, and with a care “an ordinarily prudent person in a like
Code of Ethics

position would exercise under similar circumstances."

1.4: Code of Ethics Review and Update. The USFHA Ethics Committee shall review and update the Code of Ethics annually and following any amendment of the USFHA By-Laws by the USFHA Board. If amended, the revised Code shall be submitted for approval to the USFHA Board and the USOPC.

2. Definition of ‘Ethical Behavior’ and ‘Conflicts-of-Interest’

2.1: Ethical Behavior. Ethical behavior is a commitment to do what is right; to obey all laws, rules and regulations; to behave with integrity and honesty; to avoid conflicts-of-interest and perceived conflicts-of-interest; to treat people fairly and to avoid discrimination, to respect diversity; to avoid behaving in a way that does (or could be perceived to) constitute sexual or other harassment; to accept accountability; to communicate openly, to behave appropriately when interacting with minors and juniors in a supervisory role; and to always behave in a way that is above reproach.

2.2: Conflicts-of-Interest. A conflict-of-interest is a situation in which an individual (including a corporate entity) who, contrary to the obligation and absolute duty to act for the benefit of an organization, exploits a relationship for personal benefit. ‘Personal benefit’ is here defined as a personal, family or business financial gain; a future consideration; a ‘quid pro quo’; or a ‘hold’ or undue influence over an individual (or corporate entity).

3. Code of Ethics Requirements

3.1: General Expectations of USFHA Representatives. USFHA Representatives are expected at all times to meet the high ethical standard of behavior defined in 2.1 above; to avoid conflicts-of-interest and perceived conflicts-of-interest as defined in 2.2 above; and to observe all laws, rules and regulations applicable to USFHA’s business. No USFHA Representative has the authority to require or approve any action that would break the law or violate ethical standards. They shall avoid situations where they engage in activities that would accomplish indirectly for USFHA what USFHA could not directly do legally or ethically. No USFHA Representative shall feel that a compromising or unethical situation is justified by any possible business result.

3.2: Disclosure of Conflicts of Interest - General. Notwithstanding the requirements of 3.3 below regarding annual disclosure certification, USFHA requires that USFHA Representatives disclose any situations that reasonably would be expected to give rise to a conflict of interest, or to a perception of a conflict-of-interest. If a USFHA Representative suspects that he or she has a conflict of interest, or something that others could reasonably perceive as a conflict of interest, the USFHA Representative must report it to the USFHA Ethics Committee. The USFHA Ethics Committee will work with the USFHA Representative to determine whether they have a conflict of interest and, if so, how best to address it.

3.3: Annual Disclosure Certification. Notwithstanding the general requirements of 3.2 above, the following USFHA Representatives are required to annually certify that they have disclosed activities, situations and investments that involve, might appear to involve, or could result in a potential conflict-of-interest as defined in this Code.
