Future Planning
2009 High Performance Plan
Directors Sacksen and Cheris excused themselves from this part of the Board deliberations due to real or perceived potential conflicts of interest. Extensive discussion occurred with Mr. Gambardella and Mr. Novak about the 2009 High Performance Plan (HPP) for Pentathlon. The current draft of the 2009 HPP is due to the USOC on October 15, 2008. The budgeted items in that draft are exclusively the costs of sending full teams of qualified athletes (four men, four women, two or three coaches) to all 2009 World Cups, the Senior, Junior and Youth World Championships and the World Cup Final.

Extensive discussion occurred regarding the ability of the Board to revise the 2009 HPP before the submission deadline to reprioritize several items necessary for the sport to succeed in 2009. Included in the items the Board discussed were high level training camps, coaching issues, athlete code of conduct enforcement, potential domestic competitions and the Olympic Training Center (OTC) resident training program.

Several Board members expressed a desire for the resident training program to continue at the OTC. Mr. Gambardella indicated the Board would need to establish reasonable performance standards for athletes and a training plan for resident athletes to continue the resident program including a coaching plan. The Board will undertake an evaluation of the entire resident program including performance standards, athlete – coach relations, and the budget implications of having a resident program vs. not having a resident program as it edits the 2009 HPP draft.

Mr. Gambardella indicated that the Board could have an extension until October 20, 2008, for submission of a revised 2009 HPP.

Director Siddiqi motioned that the Board seek a formal extension of the resident program to December 31, 2008. Director Matchett seconded. Motion passed 5-1-1.
