Criteria for nomination to the National Team for Term #2 of 2020 (7/1-12/31/2020) will be published in the 2020 Athlete & Sport Program Plan

2019 National Team Standards

TRACK

2019 National Team track standards are based on 104% of 2nd-placed results (averaged) for each sport class from the 1-kilometer / 500-meter time trial and the 3-kilometer / 4-kilometer pursuit at the events listed below. 100% or less of the standard suggests that an athlete has the potential to rank in the top-6 within their sport class internationally.

- 2018 UCI Para-cycling Track World Championships
- 2017 UCI Para-cycling Track World Championships
- 2016 UCI Para-cycling Track World Championships
- 2015 UCI Para-cycling Track World Championships

ROAD

The 2019 road standards are a tool to measure athlete performances in time trials, to determine each rider’s international competitiveness. 100% or less of the standard suggests that an athlete has the potential to rank in the top-6 within their sport class internationally.

Standards are built by using 2nd-placed time trial results (averaged) for each sport class from UCI Road World Cups and UCI Road World Championships held between 1/1/2015 and 12/31/2018, to create a per-kilometer standard. Events included in the dataset must meet the following criteria:

- The course was an out/back or a circuit
- The same course (or the majority of the same course) was used for all sport classes
- The course elevation profile was appropriate for all sport classes
- Participation was greater than 200 total athletes

Road time trials that meet the above criteria are:

- 2018 UCI Road Worlds, Maniago, Italy
- 2018 UCI World Cup, Baie Comeau, Quebec
- 2018 UCI World Cup, Emmen, Netherlands
- 2018 UCI World Cup, Ostend Belgium
- 2017 UCI World Championships, Pietermaritzburg, S. Africa
- 2017 UCI World Cup, Emmen, Netherlands
- 2017 UCI World Cup, Ostend, Belgium
- 2017 UCI World Cup, Maniago, Italy
- 2016 UCI World Cup, Basque Country, Spain
- 2016 UCI World Cup, Ostend, Belgium
- 2015 UCI World Cup, Pietermaritzburg, S. Africa
- 2015 UCI World Cup, Yverdon les Bains, Switzerland
USADA
Athletes nominated to the 2019 National Team(s) will be added to the USADA Registered Testing Pool/Clean Athlete Program and will be responsible for remaining compliant with all forms, updates and tutorials as required by USADA. More information regarding USADA can be found in Attachment E.

CLASSIFICATION & LICENSE
Athletes nominated to the National Team(s) must have undergone international classification evaluation and hold an international Paralympic-eligible sport class as per the UCI master list. If there has been no opportunity for the athlete to be internationally classified, the athlete must be evaluated by U.S. Paralympics medical and/or classification personnel, and determined likely to classify in the sport class in which he/she would be qualified for the program. Athletes nominated to the National Team must hold a current season international license from USA Cycling.

NATIONAL TEAM BENEFITS
National Team athletes may be eligible for the following benefits: –
1. USOC Direct Athlete Support (Attachment B)
2. Supplemental Athlete Support (Attachment C)
3. USOC Elite Athlete Health Insurance program (Attachment D)
4. Air transportation (or ground equivalent), lodging, ground transportation, meal per diem, and coaching support at designated U.S. Paralympics Cycling training and competition activities.
5. USOC Athlete Career & Education Program (https://www.teamusa.org/athlete-resources/athlete-career-and-education-program).
6. U.S. Paralympics National Team uniform. National Team athletes will be provided with cycling competition and casual apparel for Team USA competitions. Guidelines for apparel are outlined in the team rules and athlete handbook for each competition or team activity.

EMERGING ATHLETES
Athletes who meet the emerging standard during 2019, at a USA Cycling or UCI-sanctioned race, may be invited to participate in selected U.S. Paralympics Cycling program competitions/events. Invitation is at the discretion of the Director, U.S. Paralympics Cycling.

2019 PROGRAM ACTIVITIES
2019 National Team(s) activities are outlined on page 2. Athletes will be required to attend all 2019 activities included in their personal performance plan, which will be developed in conjunction with the Director and the Associate Director, High Performance.

The January all National Team camp is mandatory of all National Team athletes. In addition, all athletes must attend the respective National Championships (track or road), relative to the team in which they are named (i.e. an athlete named to the Track National team must attend the 2019 Track National Championships).

Failure to attend required activities as outlined on page two (2), or in the athlete’s personal performance plan, will result in forfeiture of DAS for that month.
**2019 OPERATION GOLD**

The USOC will award Operation Gold funds in Para-cycling based off of the results at the 2019 UCI Para-cycling Track or Road World Championships, as outlined below.

In a Paralympic Games year, teams and individuals must place in the top-three at the Paralympic Games to qualify for Operation Gold Awards; multiple Operation Gold Awards can be received if an athlete has multiple top-three finishes at the Paralympic Games.

In non-Paralympic years, Operation Gold Awards are limited to one award per athlete in a program year; athletes who qualify for more than one award automatically receive the higher award. Individuals must finish in one of the top eight places, while teams must finish in one of the top six places at the qualifying event in order to qualify for Operation Gold Awards in non-Paralympic years, provided individuals/teams finish among the top 50% of the individuals/teams who started the event.

For purposes of Operation Gold, a team is defined as three or more athletes (pairs are awarded at the same rate as individual athletes).

NOTE: For Paralympic sports with a discipline or event that is not included on the program of the Paralympic Games, that discipline or event will not be eligible for Operation Gold. However, if a Paralympic sport has a revolving program for the Paralympic Games (i.e., an event is taken from the program one quad, but is added back to the program the next quad), that event or discipline will be eligible for Operation Gold at the approved qualifying event.

U.S. Anti-Doping Agency (USADA)

Whereabouts:
An important part of USADA’s testing program is the ability to test athletes without any advance notice in an out-of-competition setting. Athletes are subject to testing 365 days a year and do not have “off-seasons” or cutoff periods in which testing does not occur. Whereabouts information, (dates, times, locations, etc.) is information submitted to USADA by an athlete that allows the athlete to be located for out-of-competition testing.

For more information on whereabouts, please go to https://www.usada.org/testing/whereabouts/.

Therapeutic Use Exemptions (TUEs):
In some situations, an athlete may have an illnesses or condition that requires the use of medication listed on the World Anti-Doping Agency’s Prohibited List. USADA can grant a Therapeutic Use Exemption (TUE) in these situations in compliance with the World Anti-Doping Agency International Standard for TUEs. The TUE application process is thorough and designed to balance the need to provide athletes access to critical medication while protecting the rights of clean athletes to complete on a level playing field.

For more information on TUEs, please go to https://www.usada.org/substances/tue/.

Global Drug Reference Online (Global DRO):
The Global Drug Reference Online (Global DRO) provides athletes and support personnel with information about the prohibited status of specific medications based on the current World Anti-Doping Agency (WADA) Prohibited List.

Global DRO does not contain information on, or that applies to, any dietary supplements.

The Global DRO can be found at https://www.globaldro.com/Home.
