Kamahoahoa/Franck win Women’s division
Trent/Wright retain Doubles Title

by Pat Gerity

The National Doubles Championships presented by Lite Beer from Miller and sponsored by D.P. Leach and Penn Athletics Company was the highlight of the 1983 AARA national tournament season. It was the second tournament of the year, boasting a record draw, and filled with the best amateur talent in America. Involved in the competition were 13 of the 18 members of the U.S. National team. Representative from every state in the union attended. The festive atmosphere created by Lite Beer from Miller and the Tyrone Racquetball Club of St. Petersburg, Florida made possible one of the most enjoyable and successful tournaments to date.

Once the draw sheets were posted, the players and spectators recognized some of the best singles players in the nation. Surprisingly, most were teamed with their closest opponents. In the Men’s Open Dan Ferris, MN, National Singles Open Champion, and Jim Cascio, NJ, runner up in the singles, were paired as a doubles team — one that would have to be watched. The Men’s Open had John Hennon and Ed Reeman, VA, the top two players in Houston. The Women’s Open had Maia Kamahoahoa and Carol Franck as a team. Kamahoahoa was runner up in singles and Franck is a past open champion. The stage was set and the talent about to rise on what would be one of the most exciting doubles competitions in AARA history.

When it was all over Stan Wright and Steve Trent, CA defeated Mark Malowitz and Jeff Kwartler, TX 21-17, 21-15 to retain the national doubles title. Melia Kamahoahoa and Carol Franck, VA defeated Mary Halroyd and Gail Lauteria, FL 21-17, 11-12 to earn the women’s national doubles title. Both teams earned berths on the U.S. National Racquetball team that will compete in the World Championships in Sacramento, CA at the Gannagels Racquetball Club on July 16-22.

As the tournament started, the excitement mounted. The Men’s Open draw was extremely powerful. The list of teams headed by defending National Doubles Champions, Steve Trent and Stan Wright, led John Hennon and Ed Reeman, VA, the top two players in Houston. The Women’s Open had John Hennon and Ed Reeman, VA, the top two players in Houston. The Women’s Open had Hennon and Reeman, VA, the top two players in Houston.

The Men’s Open had outstanding teams comprised of Carol Franck, VA and Melia Kamahoahoa, NC; Marilyn Miller and Janet Watts, FL; Kathy Guvna and Toni Bevelock, Memphis State; Mary Halroyd and Gail Lauteria, FL.

The Mixed Open found half of last year’s championship team, Dan O’bremyke, PA with a new partner Tony Bevelock. The Men’s 25+ and 30+ was ruled by the two most powerful singles players, Ed Reeman and John Hennon.

The action packed social activities seemed popular. Outdoor evening entertainment was offered at Janis Landing, an outdoor mall and garden in St. Petersburg. The highlight of this tournament social calendar was the awards banquet attended by over 300 players and guests. Highlights included a special slide presentation produced by Jim Hiser. Special awards were made to Lite Beer from Miller, Penn Athletic Products, and D.P. Leach for being sponsors. Also, the AARA Board of Directors, headed by President Paul Hendrickson, made a special presentation to Lukey St. Onge, Executive Director, as a sign of appreciation for his monumental achievements in bringing amateur racquetball into the presence of the U.S. Olympic Committee.

MEN’S OPEN

The Men’s Open was filled with talented players and teams. Defending national champions Trent and Wright returned to defend their title and retain their position on the U.S. National team. They did not lose a single game throughout the entire competition. The challenges, a list of who’s who in American amateur racquetball, lined up to take their shot at the champions.

The upper bracket had Andy Roberts and Brian Sheldr, Memphis State, Joe Icaza and Sergio Gonzales, Florida State Champs, and National singles powers Joe Wirkus and Tim Wirkus, WI. The lower bracket was led by Mark Malowitz and Jeff Kwartler, TX, five time National Doubles Champions. Dan Ferris, MN, and Tim Cascio, NJ, National Singles Champs, and runners-up Cliff Swan and Scott St. Onge, MA, Boys ’10 Under National Champs and Bubba Gautier and Tim Hanson, a Florida power with which to be reckoned.

The outcome in the upper bracket had Wright and Trent earn a position in the championships without any close matches. The lower bracket had a different story. Kwartler and Malowitz received a scare from Cliff Swan and Scott St. Onge in the quarter finals. They contested the tie breaker and moved on to the semis and then the finals to meet Trent and Wright. The stage was set: Trent and Wright, defending national champions versus Malowitz and Kwartler.

When questioned on why he was playing in two events in the Nationals — the first time he has ever done so — Kwartler stated that he believed it would keep him highly motivated and psyched for every match he played in. It was his job to fire up Malowitz and keep them at a high emotional pitch throughout their matches. By the championship match Jeff was convinced he had made the right move in playing two events and that Mark and he were playing well enough to be ready for the champs.

Trent commented that Wright and he were playing better than last year. He felt they were much more of an established team with a more powerful game. Asked if he could predict the outcome of the match he said that there would be two well-established teams who knew each other’s strategies and

(Continued on page 2)
Doubles Tournament (Continued from page 1) that there would be hard-fought, well-played games in a very close contest. Game one went to Wright and Trent, 21-17. The first game of the championship match was played extremely closely. The scoring went back and forth, point for point, neither team dominating play or surging to the front. There was a mixture of pinch shots and powerful passing shots with a rollout here and there, but neither team would break. The first 16 points saw-sawed back and forth. At 16-16 Trent served first and the team picked up the 17th point on a pinch. The second serve produced another point from a powerful pass by Wright. There was a time out. The third serve and rally forced an error and created another point. The next game by Wright ended in a hand-out. Wright's first service ended with a pass by Trent. Second serve ended side out. Malowitz and Kwartler could only produce one point. Score 20-17 with Trent and Wright serving. The first service produced a forced error. The second game got off to a fast start with Malowitz and Kwartler taking the lead in their first service. Trent and Wright could only manage one point in their first service. The crowd began talking about the likelihood of a tie-breaker. Malowitz and Kwartler, serving for their second game, were in control. Trent placed the second serve and they forced a second rally. This tremendous shot, whether it was luck or skill, was a sign that Trent and Wright could not be counted out of the second game. They began to gain some confidence, scoring two points to bring the score to 7-5, their favor. The crowd began to think that Kwartler and Malowitz were in control. There were 14 points in play. Wright and Trent's next service that they came back to tie the points, 11-11 in their favor. It was at this point in the game that Trent's serve was weak. It was as if the crowd was waiting for the force to be known to everyone. He put together a series of passes with a roll out here and there to put Trent and he out in front. Trent and Wright scored 12 of the next 14 points to overcome Malowitz and Kwartler 21-13.

**WOMEN'S OPEN**

The Women's Open was full of exciting action-packed matches. The top-seeded team of Franck and Kamaahaoha came through victorious, but without a struggle. The draw was full of upsets. In the upper bracket Cindy Alba and Janet Simon, MA, were upset by a Florida team of Mark Morrow and Mary Lyons. The Morrow team lost a game on their way to the championship match. Neither team appeared to have the advantage. The first game went to 12-12 that turned things in their favor. Morrow and Lyons won the first game 21-19. In the other semifinal match, the top seeded team of Mark Morrow and Mary Lyons, FL, were upset by Susan Morgan and Mary Lyons, FL. They were then teamed against Mary Halroyd and Gail Lauteria, FL in their semifinals. Lyons and Morgan won the first game 21-19, lost the second 9-21, and gave all they had to the tie breaker 11-9. In the final match that World Cup, with his total presence being known to everyone. He put together a series of passes with a roll out here and there to put Trent and he out in front. Trent and Wright scored 12 of the next 14 points to overcome Malowitz and Kwartler 21-13.

**MEN'S 25+**

The top team of Mark Morrow and Bruce Radford, FL, had no trouble moving through to the championship round. In the lower bracket, Jeff Kwart- ler (of the famous Kwartler and Malowitz open team) and Marc Auer- back teamed up successfully to move on to the championship round. Neither team lost a game on their way to the championship match. Morrow and Radford defeated Manny Chase, FL, and Pete Page, MN, in the semifinals 21-10, 21-12. In the other semifinal match, Auerbach and Kwartler defeated Dan Dubosky and Randy Pfahler, FL, 21-6, 21-12. In the final match, Kwartler and Auerbach faced off against Morrow and Radford. Morrow and Radford came back in full control and dominated the tie-breaker 11-7.

If your answer to any of the above is "yes" then you should subscribe to **National Racquetball Magazine**

- Want to improve your backhand?

- Like to serve more aces?

**With special thanks...**

**Time Out-sidebar**

The U.S. National Doubles was a tremendous success. No such endeavor could be undertaken without the support of our national sponsors. The generosity of D. P. Leach and Greg En- clair, product manager whose support continued throughout the entire event. The club and staff were icing on the cake.

Thanks to Pat Gerity, AARA floor manager, for another great job. This year we saw some new faces and many of our old friends who worked their magic by putting on a slide show set to music at the banquet. The night was not only emotional, but also the highlight of the weekend.

New Women's Champs Melia Kama- haoha/Carol Franck enjoy their win.

Last, but not least, a tremendous round of applause to the Tyrolean Racquetball Club of St. Petersburg for hosting the Nationals. Under the expert guidance of Carl Nickels, owner-manager, the beautiful facility was opened up to over 270 doubles teams. His staff of Babbit, Gane, Maricia, Bonnie, the twins, Alice, and so many others worked tirelessly throughout the event. The club and staff were icing on the cake.

Thanks to Jim Hiser, Regional Director from Michigan, who worked his magic by putting on a slide show set to music at the banquet. It was not only emotional, but also the highlight of the weekend.

Doubles Tournament (Continued from page 2)

21-16, 21-16. Morrow and Radford kept their streak alive in the championship match by defeating Auerbach and Kwartner 21-16, 21-10, not losing a single game throughout. Third place was taken by Van Dulbeke and Randy Pfahler.

WOMEN'S 25+

In this round robin schedule the sec-
ond-seeded team of Molly O'Brien and
Linda Kennedy, PA, dominated the play,
emerging victorious with a 4-0 record and the Women's 25+ national championship. The runners-up were Marilyn Miller and Janet Watts, FL. Third place went to Trudi Green and Fran Morris, CT.

The lower bracket was split between two powerful teams. Joe Iloza, FL and Mark Auerbach, TX and Tom McKie and Kent Taylor, TX. The semifinal match was very exciting with the Iloza-Auerbach team winning in three long, hard-fought games. The championship match was dominated by Hennon and Reman over Iloza and Auerbach 21-10, 21-4. Third place went to Tom McKie and Kent Taylor, TX.

WOMEN'S 35+

Morrow and Radford won the number one seeded team of Carol Franke, VA, and Mildred Gwinn, VA. Winning with an impressive 4-0 record. The runners up were Vicki Edelman and Mimi Kelly, MA. Third place went to Libby Laney and Judi Schmidt, FL. They also received an honorable men-

talented players. The first game went to Radford and Morrow 21-10. The second game Reman and Hennon took charge and won 21-17. The third round was won by Gary Mazzacarri, NM, and Harold Lujan, CO.

WOMEN'S 30+

The top seeded team of Marilyn Ross, PA, and Jeanne Farrell, VA, made its way to the finals after a three game match in the semifinals with Mimi Kelly and Vicki Edelman, MA. The lower bracket had second-seeded Janet Simon and Linda Alba being upset by Judy Schmidt and Gail Lauteria, 21-15, 21-15. Ross and Farrell had been in the finals of last year's championship and finished runners-up. This year there was no question they were going for gold and captured it faster than any other. The semifinals were won by Judy Schmidt and Gail Lauteria, 21-15, 21-15. Ross and Farrell had been in the finals of last year's championship and finished runners-up. Explorers enjoy racquetball at National Olympics

by Terry Murray

Skill in racquetball has little to do with physical size or age, as was noted during the National Explorer Olympics held at Ohio State University, Columbus, August 8-12. Exploring is a coed program offered by the Boy Scouts of America. It is open to young adults from age 14 to 20. Program activities differ for each local post, depending on members' interests. Activities range from high adventure, such as racing, caving, diving, and repelling to career exploration in law enforcement, health care, and engineering. Sports is also an important part of the Exploring program, and the top competitors are brought together every other year at the National Explorer Olympics (NEO).

At the NEO, Explorers can participate in five of the 30 sports. At this year's Olympics, many opted for racquetball. Before competition began, Garner White, Events Director for Racquetball, held a general clinic. About 25 recreational racquetball players interested in sharpening their skills and learning a few new tricks attended the clinic.

White, a retired corporate controller from Rapid City, South Dakota, got involved in Exploring because his son, Keith, gets so much out of it. Since retiring, White has more time to enjoy Explorer activities. As regional and local leader, he finds himself involved in men's singles. Keith White, 15, of Post 110, Rapid City, beat Jeff Jordan, 19, Post 806, Lubbock, Texas, 15-9, 15-4. The competition was fierce with each man pushing himself to do his best.

After competing, Jordan said, "The competition was very diversified. I felt that it was well-organized because the challenge got harder and harder as it went on. I appreciate the fact that I wasn't blown away in the first round. That's what would have happened if I was up against White." Said White, "Other rounds were gradually getting better, but the finals were tough. White has been playing racquetball for about a year and a half, since his parents got him a membership in a Rapid City club. He plays racquetball regularly and came to the Olympics for some competition. He has taken lessons from pros Steve Strampe at Camp Bisco in Denver and Jim Synhorst, who lives in Rapid City. In women's singles, Paula Russler, 14, of Post 110, Rapid City, beat Christy Birns, 17, of Post 6, San Luis Obispo, California. Paula has been playing on and off for about two years, she says. She had not heard about the National Explorer Olympics until Garner White invited her to come along. The new Explorers won her rounds 15-1, 15-2.

In 1985, the Olympics will be held in Ohio State.

NEW DIRECTIONS

by Luke St. Ong

There is no question that the National Doubles Tournament at the Tyroleans Racquetball Club in St. Petersburg is a truly great happening. After every National we repeat, "It was the best Nationals yet." Well, it's true, and the U.S. National Doubles was no exception. For those who have not attended a Nationals you are really missing an important part of your sport.

Our congratulations to Steve Trent/Stan Wright and Melia Koomahoshi/Carol Frene who qualified to represent the United States in the World Championships slated for Greensboro Racquetball Club next summer in Sacramento, California.

We are extremely pleased to announce that the 1984 U.S. National Singles Championships will once again be held at the Downtown Y.M.C.A., Houston, Texas. This will be the first time that the AARA has repeated a National site back to back and it goes as a great note of confidence to the Houston Organizing Committee. In order for anyone to compete in the U.S. National Singles and U.S. National Junior Championships this coming year they must qualify by competing in the Adult Regionals or Junior Regionals. Complete details are printed elsewhere in this issue.

With the momentum of the U.S. National Doubles, we have once again established the prestige and quality that the 1984 Nationals will most certainly carry forward.

Teaching Tots:

For the Fun of it!

by Jim Baysch

Children from two to eight years old playing racquetball? Impossible? No—just fun.

The two keys to teaching children racquetball is to keep them busy and to let them have fun. Little children can play racquetball—maybe not a 21-point game, but they can learn new skills, gain a sense of confidence, and improve their self esteem.

To keep their attention I have found certain techniques to be successful. First, teach the children how to hold the racquet. Show them how to grip the racquet, where to place their feet for the forehand, how to keep their racquet up and under the ball, and how to swing through. The instructor should judge the amount of instruction on each child's ability and attention span.

Once the fundamentals have been attained, the instructor should work individually with each child, dropping the ball for the child. The instructor should encourage the children consistently, even if they slam the ball into the floor. After a period, the instructor can try creative and different types of racquetball games. I have found the use of targets successful, but they must be targets that the children can relate to. For example, I have placed a poster of Darth Vader on the wall, and the children are told to hit the poster with their "laser torpedo racquetball."

I have also used "hit the fish." For this, the instructor needs a fishing rod and reel and some thick nylon fishing line. Then the instructor can attach the ball to the fishing line and have the children hit the ball. The teacher can raise or lower the ball to help the children work on their eye and hand coordination. It is important to change activities approximately every ten to twelve minutes.

For children who are more advanced and want to play competitively, the instructor can teach them how to play "no-bounce." No-bounce can usually be taught to five year olds and up. No-bounce is also a great way for younger children to play against their parents or older juniors. The teacher can let the younger players play no-bounce while their opponents play one bounce. My six-year-old won many an ice cream by playing me a tough game of no-bounce for him and one bounce for me.

A tiny tots program is important for many reasons. First, it enables young children to play the game that their older brothers and sisters and parents enjoy. Second, it allows children to expand their frame of reference and gain more self esteem. Third, it creates a greater foundation for the future of racquetball. Last, and most important, a tiny tots program is fun for everyone involved.

State and Regional News

Our congratulations go out to the 1983 Regional Directors who won awards in the 1983 Lite Beer from Miller Incentive Program. Grand prize went to Bruce Hendin of Region 7 (Texas, LA) — $1500. First prize of $500 went to Al Sellens Region 2 (NY, NJ). Second prize of $500 goes to John Forsell Region 12 (CO, NM, AZ, UT). Third prize of $500 was awarded to Bill Gillmor Region 15 WA, OR, ID. Fourth prize of $500 went to Paul Henricksen Region 1 (MA, ME, NH, VT, RI, CT). Fifth prize of $200 goes to Rick Lukaske of Region 6 (KS, MO, OK, AR). Sixth place of $200 goes to Mike Arnot of Region 10 (IN, KY) while seventh place of $200 goes to Scott Jenson of Region 14 (CA, NV, HI). The Lite Beer from Miller Incentive Program will be repeated again this year. Again, our sincere thanks to Lite Beer from Miller for their continued support of amateur racquetball in the United States.

**Scoring Format for the New Season**

**Time for a New Scoring Format?**

During the 19 years I have played and enjoyed racquetball, I have seen many changes in the rules of the game. Some changes have been good; others, not so good. Though all these years and changes, however, rarely have we evaluated the way we score. It is an area that demands investigation. Tournament directors and men’s and women’s Pro Tours around the country use a variety of scoring formats. There is no one format that is a clear-cut winner. But how do we change? Should we have, for example, shorter games but more days? Should we have fewer sets? Should there be a score for every game?

There are many possibilities. But first we have to recognize the importance of any scoring change. We need to be sure that any such change would enhance the game, both for the player and the spectator. Let’s analyze some aspects of the current scoring system that I think adversely affect the game.

1. **Only one server may score.** There are sometimes periods in a game where there is no scoring. This is time consuming and monotonous for both players and spectators. It’s boring even in short, tie-breaker games.

2. The server has too many advantages in our game. Servers are allowed to serve until a recoverer puts them through. This is a tremendous advantage to the player with a strong serve. The server starts front-court control position and is the only player who may score in the rally.

With our current scoring systems, controlling match times is virtually impossible. With more and more people playing racquetball and entering tournaments, some tournaments have used 31-point games in the first, and sometimes second rounds to handle all the players who want to play. No one likes to pay $25.00 entry fee and play one game to 31 points.

4. **Racquetball is the only major racquet sport that allows the only server to score during a rally.** This scoring format was adopted from handball’s scoring system. Racquetball was patterned after handball, played on the same court, and organized nationally by the handballers. Why shouldn’t a player in the 9th inning winning a point with a shot, in all other major racquet sports?

With these points in mind, let’s analyze what a good scoring system should include.

1. It should make the game interesting and exciting both for the player and the spectator.

2. Players should have to consider strategy during each rally.

3. The scoring format should allow games and matches to be played on a timely basis, with reasonable time limits. This would allow all age groups to be physically able to compete on an equal basis.

A scoring system that scores on every rally, short games, and sets and tie-breakers is what makes tennis an interesting and exciting sport. Players and spectators’ interest can be held in a three or four-hour tennis match. Even racquetball is a better sport because the action is quicker, and there is a bigger variety of shots displayed. Still, no one, not even the players, enjoys long or short rallies during which neither player scores, and the match is stalled.

All of the formats just suggested have been tried in tournaments and leagues here in Houston and were successful. The greatest obstacle to overcome is a fear of change.

The Will to Win.

The will to win. When you've got it, nothing can stop you. It breaks down the barriers and pushes you to the ultimate limits of your capabilities.

Once you're there, you'll find that only Ektelon racquets can meet your performance standards.

Our Graphite CBK, the game's most powerful racquet, and the Composite 250G, the most widely used tournament model, are designed for players who want the best. If you demand as much from your racquet as you demand from yourself, the choice is clear.
