**Correspondence**-
- The Reps forward any official correspondence that comes from USARS: promotional fliers, jot forms, pertinent information. Over the last few months we have shared some of the following information: USARS axle contest, USARS fail contest, and fliers for the NVI and Remote Online Figure Competition.
- Any letters that are submitted directly to a Representative are discussed on the monthly call and forwarded to the FSC

**Coaches Guide**
- The Reps have agreed to update the Coaches Guide (provided by Gloria Manning) to have ready for the 2021-2022 skating season

**Annual Requirements**
- The Regional Representatives sent out a request to the coaches in their Region asking for any proposals or suggestions for the following season. The Reps collect that information and forward it to the Secretary, who then compiles it so that each item can be reviewed and sorted by the group. This season we reviewed and discussed 38 proposals submitted from the field.
- The Reps went through the youth and adult requirements and made suggestions for the 2021-2022 skating season based on the feedback from the field. Those suggestions were forwarded to the FSC.
Officials

The Officials Committee has been receiving applications for consideration to judge at the National Championships. They also have been testing future officials for their C or B commissions. The judges continue to participate in the National Virtual Invitational (NVI).

RollArt Technical

The Rollart Committee has completed the following items in the past 6 months:
- Hosted a Webinar detailing the official roles within the Rollart System (October 11, 2020)

- Using the Rollart Scoring for the applicable NVI events

The Rollart Committee has done preliminary planning on the following future project:
- Training webinars for new officials
- Officials training platform via Google Classroom

Academy Leaders

Since the last board meeting, the Academy Leaders have focused most of their time creating discipline specific tests in G-Suite for the new Coaches Education Certification program which was approved at the last Board Meeting. We also have been continuing with our own WS education with their online courses from November to now. There will be 8 Leaders taking their final tests for Level 3 in May to be certified as "WS International Coach"
The Level 1 and 2 tests are now complete and we have begun planning with the FSC and office for online zoom testing for coaches.
We will be preparing to do some educational seminars and on skates training during the National Championships, and are currently planning on presenting some short presentations over facebook with tips for coaches on various topics.

Minutes:
**Meeting was called to order at 5:36 pm PST.**

1. **Report from Board (Ed)**
   a. The Board approved our meeting minutes although there was confusion due to some items that were approved by FSC in our minutes but then not approved by Executive. Also approved the International Competitions document. The chair also submitted a request that any complaints that come to the Board, President, Executive director, etc. be brought to sport committees, which the Board agreed with and plans to put a new policy in place related to this.
   b. Update on committee members – Katelyn Rodgers has been added to FSC to help bring us to 33.3% athlete representation compliance for all USOPC sports. John Peck and Lawaun Modrich were chosen to be voting members and Janet Pavilonis has a one year non-voting term. The chair informed us that there has been a dispute raised but it has not yet been resolved. It was suggested that we should postpone this meeting until after a final decision is made for the makeup of the committee. Further discussion about not wanting to postpone due to uncertainty in the skating community and instead we should hold the meeting going off the current list from the Board (even if that changes in the future) of Lawaun and John voting and Janet non-voting.
      
      **John moved that we postpone the meeting until we have a clear picture of who is on the committee, the motion died without a second.**

2. **Elections**
   a. Chair – Doug nominated Joyann, Joyann accepted; Jodee nominated Doug, Doug declined; Lawaun nominated Jodee, Jodee declined; John nominated Curt, Curt declined.
      
      i. After much discussion about whether or not it would be appropriate to have an active competitive skater hold the position of FSC Chair, the vote was called. As there were no other nominees, **Joyann named chair by acclamation.**
   b. Vice Chair – Tony nominated Doug, Doug accepted; John nominated Jodee, Jodee declined

4. **Discussion of Team USA coach and manager for 2021 worlds and National meet director**
   a. **Doug moved to keep Vickie Bateman as team coach and Fred Smith as team manager and Ed Harney as National Meet director for the 2021 season, Tony seconded.**
      
      Discussion about these people being decided on by the FSC last year and the events did not happen. However, there could be other people interested now that it is a new year with new timing. Currently, the FSC does not know if the 3 people are still interested.
5 ayes, 3 nayes, motion passed.

5. Old business
   a. 3 year rotation for adult events investigation: Janet, Curt, Tony
   b. Juv/Elem B free/solo split, Fresh/Soph B team change to Open B team, eliminate crossover between domestic and world skate dance events – why is this coming to FSC from coaches reps and do the numbers support it? Lawaun, Jodee, Joyann

6. New Business
   a. Requests for Pan Am Championships in Ecuador. Information was sent to those who submitted jotform requests but we have not had any formal requests sent to FSC yet for actual skaters interested.

      i. Technical Manual in Drive folder (updated with minor changes compared to last draft sent to FSC with edits from Doug, none of which altered the meaning of definitions)
1. Curt is in the middle of reviewing; looking at the consistency in terminology and looking for a document that will endure over time
2. Joyann suggested making a deadline of providing feedback by January 1st, 2021
   ii. Possible change in how rules questions are answered: First the question and potential answer will be sent to FSC allowing 24 h for comments from FSC members, if no comments/feedback/discussion, the answer will be sent to the asker. (Other opinions welcome on this format, just a suggestion)
      1. All members agreed this was a good idea.
      2. Janet posed that all responses on rules should come from the figure rules email instead of Jessica Gaudy’s personal email. Megan said the email is not currently set up that way but that she will see if USARS has the email space to create this email so that we can send rule responses from that email.

b. RollArt Technical Committee - Minutes and RollArt Equipment estimator in Drive folder
   i. Scott compiled a technology list for running a RollArt panel. He also shared that USARS has 5 free licenses and any additional are $500 each. In order to distribute RollArt to each region, each region should appoint a designated Data Operator who will be responsible for installing and updating the software as well as storing and maintaining the hardware.
      1. Joyann will reach out to Region Presidents to get a baseline for who is looking to purchase what as far as equipment

c. Officials - No meeting since the last combined Officials/RollArt Tech meeting
   i. The judges portion has been soliciting people who want to become involved in the judging field with several people taking the C exam. The B exam is more detailed as it involves some of the basic information included in the new scoring system (RollArt). There have been a few who took the exam and passed. The referee portion of their committee has had a slow start but a couple of skaters have taken the C exam.

d. Regional Coaches Reps - Minutes and Jotform results in Drive folder
   i. Silver Moveup Rule, would we like to proceed on this? Regional Reps are willing to assist with this if FSC would like to move forward.
      1. Survey results are in favor of the rule
2. Jodee explained how the move up rule will help to create healthier competition in this level.

3. Curt mentions on the other hand how there is a retention issue with discouraging bronze level skaters who don’t feel ready to move up to silver. Suggests fixing the rule so that the move up requirements are clear and simple so it is easy to enforce.

      i. New members should submit their bios to Joyann
      ii. Returning members should make any updates
iii. These are due by January 1, 2021

b. Discussion with Heidi (USARS President) about bringing value to our members
   i. Suggestions for ways to provide value for having a USARS membership (example: a virtual competition including feedback from real judges, a competition for the best item, a zoom session to teach coaches and skaters about a specific topic). Mary suggested outdoor events with camps also some test like the RSA does, But from USARS, proficiency test.

DISCUSSION AREAS

Junior Pan Am Qualifier

- Some frustration is building. The only person for sure is Valerie as she's already there.
- Kelly voiced concern that he is going as a private person IF he does go. He is not comfortable with any liability issues.
- Kelly suggested that we request a letter asking for a bye for the event due to risk and other factors for travelling to South America.

Team Qualification

- Kelly - Interested on Erin's ideas from years past on qualification.
- Jay - Please notice and read letters from years past on what qualification was. Attached later in the minutes.
- Gypsy - When the US stopped residency our medal count has dropped.
- Gypsy / Jay Residency worked well for people who really wanted to put in serious work and its needed.
- Gypsy - Spitballing -- announce residency program - state requirements and athletes pay for the residency. Then serious people come and attend. We can still have events for national team and such but with current RONa stuff out there its near impossible to make stable and certain plans.
- Kelly goes over some of the methods other countries utilize and some of the methods USA used in the past and how effective they were.
- Should the team be selected from a residency program?
3 Person Relay Survey

- Conflict with the information presented and feedback from the survey.
- Based on survey - The committee vote to keep 3 person relay to stay as written in the current rule book dated 2019.

World Skate Academy

- Committee needs to select 5 people.
- Kelly is willing to be one of the 5 but has issues with taking a spot as he's already going there as an indoor rep. He will have more discussion with World Skate on that topic.
- What kind of process to choose the 5?
- World skates wants the people going to be the ones to train... so train the trainer type thing.
- Jay - is this for money? Is this for knowledge? What's the driver behind this.
- Gypsy - USA should go... get that info and variety of thought.
- Criteria - Need to send out within the next few days.
  - Have you been a roller sports member
  - Lead a camp?
  - Coached at Internationally?
  - Level 3 or higher coach?

The 1990 National Team will compete in the "World Team Selection Trials" to decide who will be the four men and four women who will represent the United States in the 1990 World Speed Championships.

The National Team will arrive at the selection site and practice for at least one day before starting the Trials. The Trials will consist of twenty races. There will be ten "pack" races and ten "timed" races against the clock. On the day before the Trials begin, the athlete will draw the order of skating for each of the twenty races.

"Pack Races" -- The athletes will draw the order of their position in each race and each pack race will have a rolling start. During the pack race the lead skater will rotate to the end of the pack each lap until the race is declared "open" and the racers will then race to the finish in the manner they choose.

All skaters are expected to race every race according to the accepted rules of amateur speed skating. Any violation of these rules, especially unsportsmanlike conduct, will result in disqualification in that race. Continued unsportsmanlike conduct may result in being completely eliminated from continuing in the Trials.

In all pack races, each skater will be expected to maintain a pace that is determined by the Selection Committee and which is consistent with "World Class" levels of competition. In all pack and timed races the order of finish will be recorded and each skater will receive an ordinal reflecting the placement. At the end of the twenty races all ordinals will be tabulated, however, each skater will be able to "drop" his worst 2 performances (due to falls, sickness, disqualification, mechanical failure, etc.), and his 18 top performances will be added to arrive at their total.

Example: If a skater wins every race then his total would be 18. If a skater finished second in every race then his total would be 36. If a skater finished 5th in every race then his total would be 90.

The four men and four ladies with the lowest point totals after adding their best 18 performances will be considered the Official World Team.

If skaters are tied in points, the tie must be broken to decide who are to be the four members of the World Team. It will be done as follows:

The skaters involved in the tie will draw three races from the following five distances: Men - 300, 500, 1,500, 5,000, 10,000 meters. Women - 300, 500, 1,500, 3,000, 5,000 meters. Each skater will race alone against the clock and the results will be tabulated in the same manner as earlier used in the Trials. If after racing the three races there is still a tie, then one distance will be drawn from the two distances not drawn earlier and raced against the clock to determine the winner.

Meeting Adjourned
World Skate America Games – World Skate America held a competition in early 2021 in Colombia. Due to Covid, the committee did not send a team. For the second year, a rogue group of players entered a team and called themselves Team USA. This is a problem. Jon Roux has spoken to USARS regarding this. Jon mentioned that to prevent this, we need to send a team anytime there is an event. If it is an unofficial event, perhaps we send a team consisting of seasoned players along with younger player to grow the program and build skills among younger players. Jon Roux has stated that we need at least 6 months to prepare sending a team to an official event.

World Championships – This is being held in Colombia in August-September. This year, it is an unofficial event. Due to Covid, the qualification for the World Games (postponed until 2021) is being based on the results of the 2019 games. In the Senior Men’s division, USA is in first place. The senior coaches from 2019 have expressed an interest in taking senior teams to these games. The committee decided that since these games are unofficial, they would be allowed to use the name Team USA, as the group that has entered a team in the World Skate America Games has done for the past two years. The coaches will need to comply with all requirements from World Skate. Jon Roux will check with USARS to verify any minimum requirements needed from USARS. It was noted that the unofficial team that has attended the World Skate America events (with no USARS approval) have not notified or complied with any USARS or USOPC requirements. Coaches have been informed that we do not sanction their teams and they are responsible to assure all requirements are met. They have agreed with these stipulations. They are arranging for uniforms through Labeda.

Master's and Veteran's Teams – We would like to open these events to everyone who would like to apply. By taking over these events, we can make the selection more equitable, based on skill. This is something we would like to work on in the future. By taking over these games, we can assure all requirements are being done in compliance with USARS, USOPC and World Skate mandates. Currently, we have no control over what is or is not done.

Grass Roots – Although the committee is extremely organized and assures that all requirements are completed in a timely fashion, the attention to detail leaves little time to improve the program. By freeing the committee’s time from unofficial events and placing this responsibility on the coaches, the committee will be able to focus on building a grassroots program. We would like to work on doing training programs at the Olympic Training Centers. This would allow us to grow the program while teaching skills. Camps can be planned in Chula Vista and Colorado Springs. Lake Placid does not have a rink and, in the past, a rink had to be brought in by USARS.

The meeting was adjourned at 9:11.

Meeting Started at 8:05 PM EST

Meeting brought to order by HP USARS President
Discussion regarding input from the Foundation explaining that they would like an aggressive business plan from USARS.

Discussion regarding the development of a business plan: JF start with the budget which was passed by the board and see where we want to go and how we get there. For the Business plan we are tied to USOPC hard to have it only financially driven. We need a positive plan or change how we do business. Possible model would be the individual sports have there own 501C3 and USARS acts as an umbrella.

KG A business plan is a written document that describes in detail how a business — usually a startup — defines its objectives and how it is to go about achieving its goals. A business plan lays out a written roadmap for the firm from each of a marketing, financial, and operational standpoint.

HP Changing our model will not happen overnight. Hard to build members when rinks are still closed.

KG to develop a template for the new Business Plan. Detail the completed changes to operations and the new suggest changes including input from the Sport Committees for input on the plan.

KS Separate business plans from each of our sports. How is each sport going to generate income during this pandemic?
USA Roller Sports Finance/ Executive Committee Meeting

Thursday December 10, 2020 8:00PM EST

**Action Item:** HP to send email to sport committee chairman to request input on membership value and generating income.

Discussions on strategies for attracting and keeping members were discussed:

KS We are a membership organization and we need members. Most have no reason to be a member. We need to create COVID-19 membership to keep the members so they are still supporting the association. We could then set goals as in biggest club in the region. This would keep them members and they will come back.

HP each sport committee to come up with ideas that would give value for the membership. Such as virtual competitions.

AA we should put stories about athletes and other information on the website to direct traffic there and generate some excitement. Everyone liked to read about the sport. HP something similar to our old on-line magazine. KG tease on social media.

KG It will take some time to get the business plan complete because of the research required on some of the suggest changes.

HP Question: do we have to offer insurance to all the athletes, or can we allow them to choose a membership without insurance?

**Action Item:** HP research the possibility of a members only area for our website. RP a member only area will create value for members.

SC share infomercials drive membership. AK infomercial people will click to get membership.

**Action Item:** AK/SC to get moving on infomercials and athlete articles look for help from Candice H. and LA Roller Girls who have experience.

JP request members send in their best fall footage

KS some cross over with the sports Art skater doing slap shots.

SC Extreme sports. Section on the Website.

Communication should come from the coaches Reps.

TH Lower price amateur virtual membership card that would allow access to the members only website – HP to check with Sport 80.

Discussion regarding insurance cost for star membership. We need definition on what the memberships cover. We no longer have a developmental card only the limited card.
USA Roller Sports Finance/ Executive Committee Meeting

Thursday December 10, 2020 8:00PM EST

KG possibility of a two-year membership or discount on the second year. TH Hockey Committee did a plan for multiple year cards he will obtain the plan to share.

Discussion regarding National Championships JF there is a call tomorrow with the facility. Do they have a minimum financial impact? JF they know it could be less because of the pandemic. HP Marriott do we have other options. Deposits impossible currently. HP can we have less days at the venue. JF that will be in the conversation tomorrow. Discussion regarding official hotel costs and cancelation fees. Concern with signing contracts for rooms at Nationals.

JP Once we announce that we will have a National Championships we will get memberships. SC if meets happen in speed the memberships will increase. TH Hockey tournaments are already happening and they have to buy membership.

Discussion regarding Volunteer proposal everyone should have a spot in the organization. Chief Volunteer and data keeper. Volunteer training may make people more likely to volunteer.

Next meeting for the Finance committee to be determined when Board of Directors appoints a Chairperson.

Meeting brought to order by the Chair

HP Additional changes in staff were done in the office today in that Rod was released. There was discussion about when and how a replacement bookkeeper would be brought on board.

HP Accounting firm Michelle Ehlers resigned and will no longer be working for USA Roller Sports effective February 1, 2021.

USOPC provided a grant to pay for compliance activities which are being done by the staff. We are still in compliance with the grant.

KG Brent has found the following areas to cut office costs:

Copier 8 months left on the current copier lease. There is the possibility of a new five-year lease which would pay off the existing lease and reduce monthly costs to 600 for the lease and a $40 service fee. That would be a monthly savings of about $1,300 a month overall. There is also an option of another company so additional information is needed to move forward with this.

**Action Items:** Committee members to review contracts. HP to get current stats on the number of copies used.

Phones: Analog voice lines contract up April 17, 2021. Changing to digital would save money monthly and telephones would be included in the contract. HP and KG will continue to research.

**Motion:** JP Second AS to cancel phone contract with the current carrier within the timeframe in the contract before the April 17, 2021 end date. **Passed Unanimously**

USA Sponsored events should have a budget approved before the event. The budget should be submitted to the office by the host of the event. The budget should include proposed income and expenses.
