

Clarification for Inline Jr/Sr Short and Long Program Set Elements

April 25, 2016

Unlike the previous Inline Short Program, the new World Inline Free Skating Association (WIFSA) which we will be using at the World Championships (FIRS) and all qualifying events in the US, there is NO prescribed order for the set elements.

Long programs also have requirements regarding set elements, and may be limited in number (as in the jump elements). Though these are described as set elements, they also can be done in any prescribed order.
