- OD 4.1.1.6** The Scoring Chair (or appointed representative) at that competition shall be responsible for the release of official scores to the press except at all National Championships, where the appropriate USAAS National Office Staff member shall be responsible for the release of official scores to the press.

- OD 4.1.2.1.2** Increase that digit by 1 if the next digit is 5 or more (this is called rounding up).
- OD 4.1.2.1.3** Leave that digit the same if the next digit is 4 or less (this is called rounding down).

OD 4.1.2.1.4 Examples:

1. Round to the 4th decimal place: If the value of the 5th decimal place is 7, round the 4th decimal place up.
2. Round to the 3rd decimal place: If the value of the 4th decimal place is 4, round 3rd decimal place down.

OD 4.1.2.2 Figure Competition:

OD 4.1.2.2.1 Record the individual scores, each time in the same consecutive order on a score sheet.

OD 4.1.2.2.2 If 1 or more judge(s), for any reason, has given no score for any one figure, the average of the scores of the other remaining judges shall be computed and shall be considered as the missing score. This shall be calculated to the nearest 0.1 point. If a judge misses more than 1 figure, all scores given by that judge are removed for that event.

OD 4.1.2.2.3 If 7, 6 or 5 judges are used, cancel only the highest and lowest scores (one each). If 4 judges are used, determine a fifth score by taking the average of the 4 scores and round to the nearest 0.1 point. Cancel the highest and lowest scores (one each) and proceed using OD 4.1.2.2.4.4. If 3 judges are used, there shall be no cancellation.

OD 4.1.2.2.4 Add the remaining scores and calculate score points as follows:

1. **7 judges:** Add the 5 remaining scores. Then divide the sum by 5 and multiply the result by the degree of difficulty. The result shall be rounded to 4 decimal places using the Rounding Rule. See Rule OD 4.1.2.1.
2. **6 judges:** Add the 4 remaining scores. Then divide the sum by 4 and multiply the result by the degree of difficulty. The result shall be rounded to 4 decimal places using the Rounding Rule. See Rule OD 4.1.2.1.
3. **5 judges:** Add the 3 remaining scores. Then divide the sum by 3 and multiply the result by the degree of difficulty. The result shall be rounded to 4 decimal places using the Rounding Rule. See Rule OD 4.1.2.1.
4. **4 judges:** Add the 3 remaining scores. Then divide the sum by 3 and multiply the result by the degree of difficulty. The result shall be rounded to 4 decimal places using the Rounding Rule. See Rule OD 4.1.2.1.
5. **3 judges:** Add the 3 scores. Then divide the sum by 3 and multiply the result by the degree of difficulty. The result shall be rounded to 4 decimal places using the Rounding Rule. See Rule OD 4.1.2.1

OD 4.1.2.2.5 Add the scores for the individual figures for each competitor.

OD 4.1.2.2.6 The sum of the 4 figures shall be divided by the total of the degree of difficulty of the group and multiplied by 10, then the penalties shall be deducted. This sum is the Total Figure Score for the competitor.

OD 4.1.2.2.7 In Duet, Mixed Duet, Trio and Team competition, add the Total Figure Score for each competitor who actually swam in the routine and divide by the number of competitors in the routine. The result of the division shall be rounded to 4 decimal places using the Rounding Rule. See Rule OD 4.1.2.1.

OD 4.1.2.3 Free Routine, Highlight, Free Combination and Novice Technical Routine Competition:

OD 4.1.2.3.1 For each panel of the Free routine, Highlight, Free Combination and Novice Technical routines (Execution, Artistic Impression and Difficulty), the score shall be calculated as follows for each category:

1. If 1 or more judge(s), by reason of illness or other unforeseen circumstances, has given no score for a routine, the average of the

scores of the other remaining judges shall be computed and shall be considered as the missing score. This shall be calculated to the nearest 0.1 point.

2. If a panel consists of 7, 6 or 5 judges, the highest and the lowest scores for each panel are cancelled (one high, one low). If a panel consists of 4 judges, determine a fifth score by taking the average of the 4 scores and round to the nearest 0.1 point. Cancel the highest and lowest scores (one each). If a panel consists of 3 judges, no scores are cancelled.
3. The Execution score is the sum of the remaining scores in the category, divided by the number of judges less 2 and multiplied by 3.
4. The Artistic Impression score is the sum of the remaining scores in the category, divided by the number of judges less 2 and multiplied by 4.
5. The Difficulty score is the sum of the remaining scores in the category, divided by the number of judges less 2 and multiplied by 3.
6. The Final routine score shall be the sum of the Execution score (30%), the Artistic Impression score (40%) and the Difficulty score (30%), less any penalty deductions from Rule OD 3.6.2.

OD 4.1.2.4 Senior, Junior, Junior Olympic 16-17 and 18-19 Age Divisions, Intermediate Free Routine with Required Technical Elements and Masters Technical Routine Competition:

OD 4.1.2.4.1 For each panel of the Technical routine (Execution, Impression and Elements), the score shall be calculated as follows for each category:

1. If 1 or more judge(s) on the Elements panel has entered a zero for any element or portion of an element, the Event Referee will review the official video. If the required element has been executed correctly, then the average of the scores of the other remaining judges shall be computed and shall be considered as the missing score(s). This shall be calculated to the nearest 0.1 point.
 - If the required element has not been performed correctly, the Event Referee shall instruct the scorers to record zeros for that element for each judge.
2. If 1 or more judge(s), by reason of illness or other unforeseen circumstances, has given no score for a routine, the average of the scores of the other remaining judges shall be computed and shall be considered as the missing score(s). This shall be calculated to the nearest 0.1 point.
3. If a panel consists of 7, 6 or 5 judges, the highest and the lowest scores for each panel or required element with an assigned degree of difficulty are cancelled (one high, one low). If a panel consists of 4 judges, determine a fifth score by taking the average of the 4 scores and round to the nearest 0.1 point. Cancel the highest and lowest

scores (one each). If a panel consists of 3 judges, no scores are cancelled.

4. The Execution score is the sum of the remaining scores in the category, divided by the number of judges less 2 and multiplied by 3.
5. The Impression score is the sum of the remaining scores in the category, divided by the number of judges less 2 and multiplied by 3.
6. The Elements score is the sum of the remaining scores in the category, divided by the number of judges less 2. The result is multiplied by the degree of difficulty for that element. The sum of the Elements scores shall be divided by the total degree of difficulty for the required elements and multiplied by 10. This result is multiplied by 4.
7. The Technical routine score shall be the sum of the Execution score (30%), the Impression score (30%) and the Elements score (40%), less any penalty deductions from Rule OD 3.6.2.
