FROM THE HIGH PERFORMANCE TEAM:
Leeds WTS 2019... what a fantastic moment and a breakthrough performance for Matt McElroy! It is a testament to his willingness to do the hard work, his professionalism, and his belief in and patience with the process. I believe this performance will prove bigger than just this result, as I expect we will reflect on this as the moment that the seal was broken for this new era of our men’s program. I am fired up for Matt, and for the rest of the USAT Elite Men who want a piece of this momentum, and for the next generation of USAT Youth & Juniors who will see the possibilities a bit more clearly now. Thank you Matt…. we can’t wait for the next…and the next. We are about halfway into the 2019 season, and there is plenty of racing left to be had. Keep it rolling USAT Elite! JF

**REDUCING SUPPLEMENT RISK WITH NSF CERTIFIED FOR SPORT®**

Dietary supplements are regulated in a post-market fashion, which means that no regulatory body approves the accuracy of the label or safety of the contents before they are sold to consumers. As such, no dietary supplement can be guaranteed to be 100 percent risk-free. If athletes choose to use supplements despite the risks, USADA has always recommended that athletes use only dietary supplements that have been certified by a third-party program that tests for substances prohibited in sport. USADA currently recognizes NSF Certified for Sport® as the program best suited for athletes to reduce the risk from supplements. Click [here](#) for more information on reducing supplement risk with NSF Certified for Sport®.
