PLEASE READ THE FOLLOWING INFORMATION CAREFULLY:

- All athletes MUST present proof of elite status at all USA Triathlon (USAT) sanctioned events; therefore, athletes must carry their license to all events. If an athlete loses his or her elite license, he or she may print a temporary card at the USAT website.

- Athletes have one (1) year from the date of race to use result unless criteria states race(s) must be from current calendar year. Results more than 365 days old cannot be used for any of the listed criteria.

- Upon meeting the elite qualification criteria and applying for an elite license, an athlete will retain their eligibility for three (3) years. Regardless of remaining eligibility, athletes must renew and pay their membership fee annually to be considered an active elite athlete.

- In addition to renewing an elite license yearly, all elite athletes must extend their eligibility to compete as an elite athlete. Elite athletes must submit ONE (1) race result in which the athlete finished within 8% of the winner’s time at an event sanctioned by USAT, World Triathlon, the World Triathlon Corporation (WTC) or Challenge Family that offered a prize purse of $5,000 or greater. By submitting this result, the athlete then extends his or her eligibility expiration date for three (3) years from December 31st of the year in which he or she submitted the result. Example: Athlete X is approved for a first time elite license in March 2019 therefore they have an eligibility expiration date of December 31, 2022. That athlete then has all of 2020, 2021 and 2022 to submit ONE (1) race result where he/she finished within 8% of the winner’s time at an event offering $5,000 or more. If the race result is from 2020, eligibility is extended until December 31, 2023. If the race result is from 2021, eligibility is extended until December 31, 2024.

- Unlike the amateur license, an elite license is based on a calendar year. It expires on December 31st regardless of when the license is purchased. No exceptions are made.

- Once an elite license expires, an athlete may choose to go back to amateur racing, but only when the current membership license expires.

- The minimum age requirement for an elite license is 15 years old. Elite athletes between the ages of 16 and 19 may also compete in USAT Junior Development Series (“Junior Development Cup” and “Junior Draft-Legal National Championship”) events and are eligible for all awards, rankings points and prizes.

- Depending on qualification criteria met, athletes must submit proper documentation (e.g., race results, copy of elite UCI license, copy of National Federation elite license) to the National Office along with the elite license application. A printout of the actual race results must be provided with the application. A race resume, emails with race website links, or race results that have been cut and pasted are not acceptable. Athletes need only print out the first few pages of the results, but should note the number of total finishers, the website address, and date of event at the top of the first page.

- An eligibility extension for renewals of up to 1.5 years may be granted to an Elite athlete who becomes pregnant during their current 3 year eligibility period. Documentation must be submitted to USA Triathlon Membership (membership@usatriathlon.org) to be reviewed by the Elite License Panel.

- If a race cancels the swim less than 24 hours before the start of the race, the event may still be used for Elite Triathlete or Draft Legal criteria requirements, to be review by the Elite license Panel. Additional race results to support the application may be requested at the discretion of the Elite License Panel.

- Any criteria requiring a participant minimum will only include individual race finishers in that specific distance. No relay teams, non-finishers and those participating in another race will be include in participant numbers.

- **Athletes still need to renew his/her license each calendar year.**
  - Application and race results must be received at least fourteen (14) days before the FIRST event at which the athlete wishes to compete as an elite. Once an athlete has submitted paperwork, it is the athlete’s responsibility to contact USAT Membership (membership@usatriathlon.org) for
proof of their elite status. Athletes may not show up at elite events without proof of status. USAT may, at its discretion, make an exception to this rule in the case of trials/finals formatted events in which the trials race has been designated to serve as a National Triathlon Development Race (NTDR) per 2.E. below and USAT has arranged in advance to process applications on site or electronically following the posting of official results.

• Athletes registered as elites/pros CAN compete in events with less than $5,000 prize purses but they are competing in events according to the age group rules of USAT, not pro/elite rules. They cannot accept age group awards or be included in those results; they cannot be listed in the overall finish position or receive any prizes offered for overall placing.
