Want a little extra peace of mind for your event? Integro Insurance Brokers understands how to cover your sporting event because we work with top event organizers and have arranged for insurance protecting clients with millions of dollars of risk exposure. Experience is how we’re able to tailor a cancellation insurance strategy to meet your event’s needs.

9 INSURABLE COMMON EVENT CANCELLATION RISKS

1. Severe adverse weather which makes the venue unusable/inaccessible or makes the event dangerous to attend (hurricanes, tornadoes, severe winter storms)
2. Venue unavailability (from perils such as fire, structural collapse, gas leaks, and flooding)
3. Earthquakes
4. Wildfires
5. Power blackouts (like that occurred across the U.S. in 2003)
6. Communicable disease (like H1N1, Avian Flu, SARS epidemic of 2002 or a local outbreak of the Norwalk Virus)
7. Non-appearance of a key speaker or entertainer
8. Major riots and civil commotion
9. National mourning (i.e. death of the U.S. President)

All-Cause Coverage

Often times, events have problems that no one expected which is why it is good to have an “all-cause” type of coverage. This provides coverage against financial loss should an insured event be totally or partially disrupted by circumstances beyond the Insured’s control. With “all-cause” coverage, as long as the cause of your event being cancelled, abandoned, postponed, curtailed, or relocated is beyond your control and not excluded, you are covered for it.

Terrorism Coverage

Coverage may be available to insure your event against financial loss in the event of an actual or threatened terrorist attack. Specific details of terrorism coverage vary across carriers but can generally be broken down into three types of coverage: limited terrorism, full terrorism, and political violence and terrorism. Terrorism coverage is something that many of our clients are interested in, so we encourage you to start a conversation with us about your options.

Let’s Talk.

Let’s have a conversation about how Integro can meet your needs.
