USA WEIGHTLIFTING
HIGH SCHOOL
PROGRAMS

A
STEP-BY-STEP
GUIDE
YEAR 1 - 5
FAQ

1. What is weightlifting?
Weightlifting is an Olympic sport consisting of two lifts, the snatch and the clean and jerk; High school weightlifting in some states consists of the bench press and clean and jerk.

2. What other states have weightlifting programs?

Minnesota, North Dakota, Arizona, Florida*, Kansas**

*Florida weightlifting consists of the clean and jerk and bench press
**Kansas weightlifting consists of the C&J,squat, and deadlift

3. What is the process to become a recognized varsity sport in my state?
Requirements vary state to state
Contact your state High School Athletic Association for more details.

4. Who can start a high school program?
Any certified USA Weightlifting coach or Strength Coach that works in a high school can start a club program.
5. *How do I start a state wide high school weightlifting federation?*

If you are the first school in your state to start a weightlifting program, it is best to reach out to other coaches in your district to find out if they would be interested in starting programs at their school.

If they are interested, then this first group of coaches will serve as the basis for your State High School Weightlifting Federation.

If there are other schools in your state that are already running weightlifting programs but have not set up a State High School Federation, then it is best to reach out to them to initiate the start of a federation.

Keep in mind, the more unified the sport becomes the easier it will be to transition into a varsity sport.

All USA Weightlifting clubs fall under USA Weightlifting LWC 's regardless of separate 501(c)3 status.

> State associations are not required to affiliate with USA Weightlifting unless they choose to have results count towards national event qualification.
**F A Q**

6. Do we have to use the snatch and the clean and jerk to start a program?

Only if you want the results to be recognized by USA Weightlifting for qualification purposes.

7. Can our high school federation add another event (i.e. bench)?

Your high school federation may choose to add an event that falls outside of the snatch and the clean and jerk however USA Weightlifting only accepts snatch and clean and jerk results for national qualification.

It is recommended to follow the same competition format for any additional events so that the snatch and clean and jerk results are valid.

For example the competition clean and jerk must follow the competition snatch before the third event (bench) is performed.

8. Is there a discount available for coaches to take the USA Weightlifting level 1?

We currently offer $50 off our level 1 Certification with employment verification

Additional discount will be reviewed on a case by case with submission to USA Weightlifting
9. **Is there a discount available to participating athletes?**

Reduced memberships are available for youth/junior athletes $30/$40

Athletes are not required to be members of USA Weightlifting unless they are attempting to qualify for national events. Membership does not effect high school participation within your state association.

10. **Do I need to be a USA Weightlifting Coach and operate as a USA Weightlifting club to start a program?**

You do not need to be a USAW coach to start a program however here are the benefits associated with the coaches certification

General liability insurance - Coaches  
Event insurance - Athletes  
Athlete qualification for USA Weightlifting national events  
Recognition by USA Weightlifting as a high school program  
Member benefits and resources  
Exclusive sponsor discounts

The above benefits are just a few of the many reasons you should operate as a USA Weightlifting club at the high school level. In addition, to start a USA Weightlifting club a USA Weightlifting level 1 coach with an active background check must submit the club application.
11. Once weightlifting is recognized as a varsity sport in my state do I have to continue my affiliation with USA Weightlifting?

You are not required to continue USA Weightlifting membership once it is recognized by your state however USA Weightlifting membership is required if you want your meet results to count towards USA Weightlifting national qualification.

12. Are there colleges and universities that offer weightlifting and weightlifting scholarships?

There are a colleges and universities that offer weightlifting as a sport as well as scholarship opportunities. Click HERE for more information.

13. How do we track state records?

Each state association can track and keep it's own records using any system they choose. The USA Weightlifting ranking system through webpoint may also be used but will only include existing USA Weightlifting members.
CONTACTS

Who can I contact to help guide me through this process?

USA Weightlifting National Office:
