"I approve of the selection procedure EXCEPT what we have in the case of 1 spot from world championships drug testing. I believe since it is after the fact. The interpretation is not what at least myself would have approved when it was originally written."

Comment by Emmy Vargas:

"It would be prudent for the organization to revisit the development of future "Athlete Handbooks" as we move into the next Quad and I suggest we become more inclusive and seek out those affected who may be able to provide valuable input."
