   Mr. Morris shared that the USOPC’ High Performance Team visited the Oval for meetings. Their team has a new focus on the critical importance of a development pipeline for winter sports.
They realize that the rest of the world is investing in Winter Olympic Sport development at a much higher level than what we’re doing in the U.S. To continue to be competitive at the Olympic Games, a significant investment needs to be made in development.

Mr. Morris shared that The U.S. Center of SafeSport is requesting additional funding from NGB’s and the USOPC to keep up with the increased number of complaints being handled by the Center.

10)  **Executive Director Report**

- **High Performance / Staff** – In looking at HP goals for the 2019-20 season, Mr. Domer is optimistic about where we are athletically at this point of the season. For Long Track, the goal of 4 medals at WSD Championships is attainable. Defending medalists, Brittany Bowe and Joey Mantia are looking very good at this point of the season. There’s been an emphasis on mass start and team pursuit training which is paying off for the entire team. On the Short Track side, the team is skating very fast in training. Experience in racing conditions continues to be a focus with a very young team.

Ms. Wohlrab joined the meeting and reported on USS’ efforts to put in place an Athlete Development Model (ADM). The ADM will help provide guidance on how to develop an athlete the right way while keeping the sport fun. In September, Chris Needham hosted an ADM summit with about 30 coaches. It was extremely well received by the coaches in attendance. MR. Needham is now in Milwaukee doing 60 Ways of Play to develop basic skills for kids and make training more age appropriate.

Mr. Domer shared that the new hawk eye overhead cameras are installed on the short track rink and working with dartfish. This technology is to better help see and learn track patterns.

- **Development / Membership** – Mr. Morris shared that weekly meetings continue to be held under the direction of Marion Wohlrab. In the future, we will look to solidify the dates for the ST Next Gen camps earlier. Currently Milwaukee is hosting a LT Devo camp with over 30 athletes signed up. Earlier in the year, in conjunction with Congress, a Level 3 Coaching seminar was held with 14 people. USS Membership is tracking down slightly with renewals of Alumni memberships struggling without an auto renewal option.
