2021 Committee Report

Mission

Our primary goal for the IRC was to enhance USAT's participation in international activities related to triathlon, primarily within the governance structures of the International Triathlon Union and the Pan American Triathlon Confederation.

2021 Accomplishments

2021 was a better year compared to 2020. With the COVID pandemic gradually diminishing and people getting back into the sport. In 2021, Alyssa Seely was elected into the athlete committee.

We did not meet this year! As chair, I have reached out to USAT National at the beginning of each calendar year for direction on how the committee can grow and be productive in each panel. However, I had no response despite my several attempts for guidance.

2022 Objectives

Our goal for this year is to meet each quarter, provide a report on each committee to the National Office and follow the SOP for 2022.

Conference Calls Schedule:

- March 2022
- June 2022
- September 2022
- December 2022

Conclusion

Based on 2021, it looks like that we need to do a better job in communicating so we can follow in alignment with the SOP. We want to continue to provide a strong influence and guidance to the ITU on developing the Triathlon sport.
