Region 11 COVID-19 Protocols

**Please note, we are aware that Texas has lifted their restrictions and is 100% open, however the school district is still maintaining their existing protocols through the school year and USA Diving is requiring all Region meets to have COVID-19 policies in place.**

Protocols for the Event:

1. Athletes must wear their mask at all times, with the only exception being when they are on the board to dive.
2. Coaches, volunteers, and spectators must wear their mask at all times.
3. Seating is not limited, but it will be socially distanced unless from the same family.
4. Bleachers, handrails, equipment, tables etc. will be sanitized between events. (Warmups will go on as scheduled. We will clean the diving area first and quickly.)
5. Spectators will need to leave the area for us to clean and then they may return as soon as we have finished to watch the next event.
6. We will put the medals on a pretty tray and the winning coach will take the tray to each athlete who will then pick up and put on their own medal before getting on the awards stand. (We can socially distance the awards stand as they are not attached.)
7. Athletes may take off masks for their pictures and then put them back on prior to getting off of the awards stand.

Protocols for the Coaches Meeting/Social:

1. Masks will be worn unless the Coach is eating or drinking.
   a. The hotel does not have a limit on how many can attend. Only that masks be worn in the hotel with the above exception.
