Athletes nominated to the Emerging Team must be internationally classified by WPAS OR nationally classified by U.S. Paralympics Alpine Skiing and hold a Paralympic-eligible sport class as per the IF and/or U.S. Paralympics master list and hold a current season license for Alpine Skiing from WPAS and the U.S. Ski and Snowboard Association.

2020-21 PROGRAM ACTIVITIES

Each athlete is responsible for individual arrangements (including expenses) to attend these activities (i.e. travel, lodging, accommodation, entries) unless otherwise indicated in the activity listing or the athlete’s IPP (as applicable).

2020-21 OPERATION GOLD

The 2020-21 Operation Gold event will be the WPAS World Championships in Hafjell, Norway.

In a Paralympic Games year, teams and individuals must place in the top-three at the Paralympic Games to qualify for Operation Gold Awards; multiple Operation Gold Awards can be received if an athlete has multiple top-three finishes at the Paralympic Games.

In non-Paralympic years, Operation Gold Awards are limited to one award per athlete in a program year; athletes who qualify for more than one award automatically receive the higher award. Individuals must finish in one of the top eight places, while teams must finish in one of the top six places at the qualifying event in order to qualify for Operation Gold Awards in non-Paralympic years, provided individuals/teams finish among the top 50% of the individuals/teams who started the event.

For purposes of Operation Gold, a team is defined as three or more athletes (pairs are awarded at the same rate as individual athletes).

NOTE: For Paralympic sports with a discipline or event that is not included on the program of the Paralympic Games, that discipline or event will not be eligible for Operation Gold. However, if a Paralympic sport has a
revolving program for the Paralympic Games (i.e., an event is taken from the program one quad, but is added back to the program the next quad), that event or discipline will be eligible for Operation Gold at the approved qualifying event.

U.S. Anti-Doping Agency (USADA)

Whereabouts:
An important part of USADA’s testing program is the ability to test athletes without any advance notice in an out-of-competition setting. Athletes are subject to testing 365 days a year and do not have “off-seasons” or cutoff periods in which testing does not occur. Whereabouts information, (dates, times, locations, etc.) is information submitted to USADA by an athlete that allows the athlete to be located for out-of-competition testing.

For more information on whereabouts, please go to https://www.usada.org/testing/whereabouts/.

Therapeutic Use Exemptions (TUEs):
In some situations, an athlete may have an illness or condition that requires the use of medication listed on the World Anti-Doping Agency’s Prohibited List. USADA can grant a Therapeutic Use Exemption (TUE) in these situations in compliance with the World Anti-Doping Agency International Standard for TUEs. The TUE application process is thorough and designed to balance the need to provide athletes access to critical medication while protecting the rights of clean athletes to compete on a level playing field.

For more information on TUEs, please go to https://www.usada.org/substances/tue/.

Global Drug Reference Online (Global DRO):
The Global Drug Reference Online (Global DRO) provides athletes and support personnel with information about the prohibited status of specific medications based on the current World Anti-Doping Agency (WADA) Prohibited List.

Global DRO does not contain information on, or that applies to, any dietary supplements.

The Global DRO can be found at https://www.globaldro.com/Home.
