**2022 OPERATION GOLD**

The Operation gold qualifying event for U.S. Paralympics Nordic Skiing is the WORLD CHAMPIONSHIPS in Ostersund, Sweden.

In a Paralympic Games year, teams and individuals must place in the top-three at the Paralympic Games to qualify for Operation Gold Awards; multiple Operation Gold Awards can be received if an athlete has multiple top-three finishes at the Paralympic Games.

In non-Paralympic years, Operation Gold Awards are limited to one award per athlete in a program year; athletes who qualify for more than one award automatically receive the higher award. Individuals must finish in one of the top eight places, while teams must finish in one of the top six places at the qualifying event in order to qualify for Operation Gold Awards in non-Paralympic years, provided individuals/teams finish among the top 50% of the individuals/teams who started the event.

For purposes of Operation Gold, a team is defined as three or more athletes (pairs are awarded at the same rate as individual athletes).

NOTE: For Paralympic sports with a discipline or event that is not included on the program of the Paralympic Games, that discipline or event will not be eligible for Operation Gold. However, if a Paralympic sport has a revolving program for the Paralympic Games (i.e., an event is taken from the program one quad, but is added back to the program the next quad), that event or discipline will be eligible for Operation Gold at the approved qualifying event.

The U.S. Paralympics Nordic Skiing Team aims to win medals in Paralympic Winter Games (PWG). Athletes will be nominated to the 2022-2023 National Team or Development Team based on objective criteria (results) from the previous season (June 2021-May 2022), along with subjective criteria that demonstrates each athlete’s capacity, preparation, and commitment to winning at PWG competition in 2026.

General National and Development Team Guidelines

- National Team or Development Team status does not guarantee Athlete Stipends or activity support for the entire season. Athlete Stipends and activity support will be based on continued progress towards individual goals as outlined in each athlete’s Personal Performance Plan and a sustained commitment to excellence in training and performance in international competition. Similarly, athletes who are not on the National Team or Development Team may earn funding/support for particular projects and competitions by showing significant potential towards achieving international competitive success in individual or relay events.
- National Team and Development Team status will be evaluated after each season is completed.
- No minimum team size will be established.
- Athletes selected to the National Team must demonstrate a commitment to and performance trends indicative of podium results in future Paralympic Winter Games, in addition to the criteria described below.
- National C Team is the entry level of the National Team Program and is meant to identify developing athletes who are on their way to achieving higher levels of National Team status toward achieving PWG medal objectives. Therefore, returning National Team Program athletes are not expected to remain on the National C Team for more than three (3) years and athletes who have been on the National A or B Team levels will not be permitted to drop down to National C Team status without special consideration.
- Development Team status is not considered equivalent to “National Team” status but recognizes progress towards achieving that Team and international success. Development Team criteria is described in Part B below.
- World Cup (WC) “test” events (testing a new format that is not accepted in World Championship (WCH) or PWG program) will not be considered for National A or B Team Criteria but will be considered for National C Team and National Development Team.

Part A: General National and Development Team Criteria

To qualify for the 2022-2023 National Team or Development Team, athletes must achieve the criteria described both in Part A and in Part B during the 2021-2022 season (June 2021-May 2022).

Eligibility criteria:

- Athletes must be internationally classified by World Para Nordic Skiing (WPNS).
- To qualify for the 2022-2023 National Team or Development Team, athletes must achieve the criteria described in Part B below during the 2021-2022 season (June 2021-May 2022).
- National Team status includes A, B, and C Teams as described in Part B below.
• Returning National Team athletes must meet any individual performance criteria in their Personal Performance Plan from the previous season(s) in addition to the below published criteria.
• Athletes age 18 or older will be required to undergo a background screen in accordance with the current USOPC Background Check Policy.
• Athletes age 18 or older will be required to complete the U.S. Center for SafeSport’s online training.
• World Cup (WC) “test” events (testing a new format that is not accepted in WCH World Championship (WCH) or PWG program) will not be considered for National A or B Team Criteria but will be considered for National C Team and National Development Team.

DISCRETIONARY CRITERIA
U.S. Paralympics Nordic Skiing may use discretionary criteria to select additional athletes onto the National Team who have not met the objective criteria for the National Team for several reasons. These include, but are not limited to, injury or illness (via the “Injury or Illness Provision” of the National Team Agreement) and the occurrence of exceptional circumstances (e.g. earthquakes, cancellation/postponement of IF events, epidemics, riots, pregnancy).

Discretionary nominations, if any, may be based on a variety of factors, including consideration of competition results outside of the (12-month) selection period and data analytics of individual and relay events, to ensure that U.S. Paralympics Nordic Skiing is investing in the most qualified athletes with the greatest potential of winning Paralympic Winter Games medals in individual events and in Team Mixed and Open Relay events. The following factors will be considered when considering an athlete for discretionary selection:
- athlete achieved a medal in the 2022 WPNS Nordic World Championships or in the 2018 Paralympic Winter Games.
- athlete demonstrates a trend of improving performance in international competition that is indicative of a podium performance by the current international standards within the next two (2) years.
- athlete is eligible for and needed to complete the make-up of a Team Relay due to specific sport class requirements for the Relay.

Discretionary nominations for the National Team, along with National Team status and term length, will be determined by a panel of three U.S. Paralympics Nordic Skiing program staff and two elite athlete representatives meeting the eligibility requirements under, and appointed pursuant to, the USOPC Bylaws. The selection committee will automatically consider all athletes who have reached Development Team objective criteria by April 30, 2022.

Any member of the selection committee that has a possible conflict of interest must disclose it. If such conflict exists, the selection committee member must recuse him/herself from committee discussions and voting. Further, the committee member should not otherwise influence other members of the committee in the selection process. However, a committee member who recused him/herself, but who has relevant and necessary information with respect to athlete performance, for example a national team coach or high performance director, may, if requested by the selection committee, provide such information to the committee so long as such information is provided in a fair and unbiased manner and the committee member who declared the conflict of interest does not vote toward the final decision.

U.S. Anti-Doping Agency (USADA)

**Whereabouts:**
An important part of USADA’s testing program is the ability to test athletes without any advance notice in an out-of-competition setting. Athletes are subject to testing 365 days a year and do not have “off-seasons” or cutoff periods in which testing does not occur. Whereabouts information, (dates, times, locations, etc.) is information submitted to USADA by an athlete that allows the athlete to be located for out-of-competition testing.

For more information on whereabouts, please go to [https://www.usada.org/testing/whereabouts/](https://www.usada.org/testing/whereabouts/).

**Therapeutic Use Exemptions (TUEs):**
In some situations, an athlete may have an illness or condition that requires the use of medication listed on the World Anti-Doping Agency’s Prohibited List. USADA can grant a Therapeutic Use Exemption (TUE) in these situations in compliance with the World Anti-Doping Agency International Standard for TUEs. The TUE application process is thorough and designed to balance the need to provide athletes access to critical medication while protecting the rights of clean athletes to compete on a level playing field.

For more information on TUEs, please go to [https://www.usada.org/substances/tue/](https://www.usada.org/substances/tue/).

**Global Drug Reference Online (Global DRO):**
The Global Drug Reference Online (Global DRO) provides athletes and support personnel with information about the prohibited status of specific medications based on the current World Anti-Doping Agency (WADA) Prohibited List.

Global DRO does not contain information on, or that applies to, any dietary supplements.

The Global DRO can be found at [https://www.globaldro.com/Home](https://www.globaldro.com/Home).
